

clinell®

Hand & Surface Wipes

Kills 99.99% of
bacteria and viruses
in 30 seconds*

Microorganisms in the workplace

Surfaces in the workplace are a breeding ground for bacteria and viruses that can spread infections.

Bacteria can live on surfaces for long periods of time and might be picked up and spread when we touch them.

High touchpoints like door handles, desks, office equipment, steering wheels and gear sticks can be good homes for infectious microorganisms.

Regularly cleaning these frequently touched surfaces and your hands can ultimately reduce the risk of spreading infections within the workplace.

Created by Clinell, the NHS's No.1 disinfectant wipe supplier, our pack of 84 Antimicrobial Hand & Surface Wipes provide high-quality disinfection that you can trust.

Proven to kill 99.99% of bacteria and viruses*

A smaller wipe reduces waste, making our Antimicrobial Hand & Surface Wipes perfect for offices, vehicles and classrooms.

Cleans and disinfects hands & surfaces in one step

Tough on microorganisms, our formulation simultaneously cleans and disinfects surfaces in one simple step.

Smaller size, same excellent cleaning performance

Our Antimicrobial Hand Wipes effectively remove a range of bacteria and viruses from surfaces and visibly dirty hands.

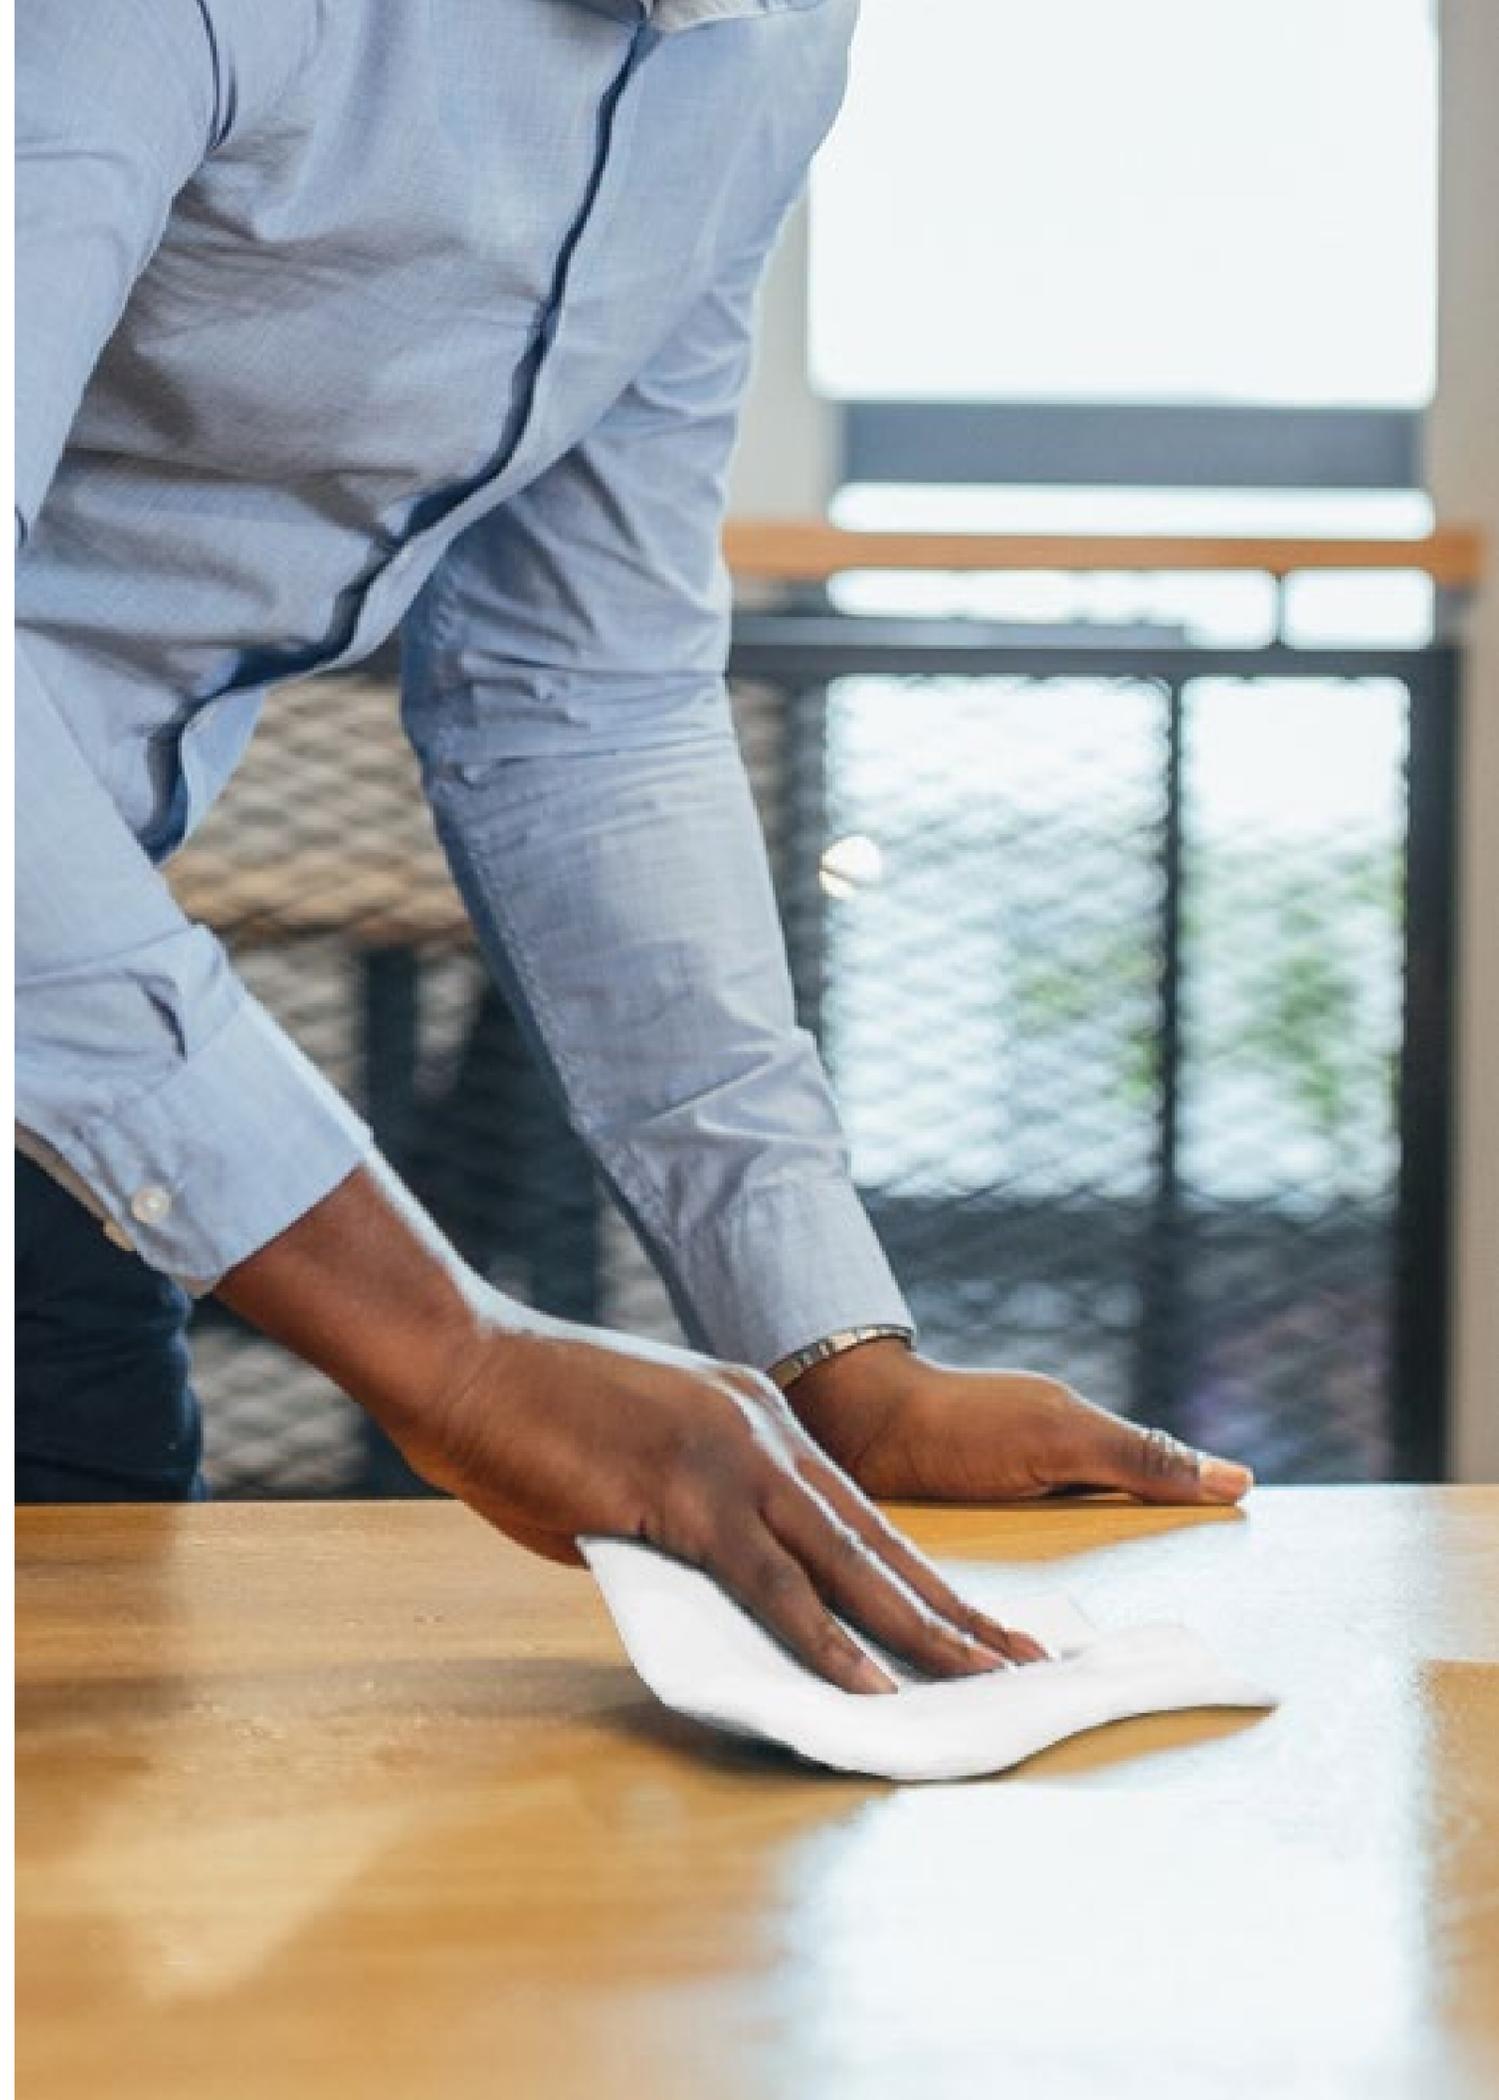

Effective disinfection action in 30 seconds

Our Antimicrobial Hand and Surface Wipes offer fast-acting disinfection and cleaning on the go.

Help stop the spread of infection

Use to clean and disinfect hands before eating, drinking & handling food and after using the bathroom, coughing, sneezing or making contact with the surrounding environment.

Who are we?

GAMA Healthcare is an infection prevention specialist dedicated to reducing the risk of infections to save and improve lives. We aim to make infection prevention effortless, habitual and accessible for all.

The products and services we provide are designed to be easily integrated into organisations, delivering world-class training tailored specifically for each organisation while supporting your sustainability goals.
